Objective

Full-Stack .NET Developer with expertise in building scalable, secure web applications using ASP.NET Core, C#, and SQL Server. Skilled in microservices architecture, RESTful APIs, JWT/OAuth 2.0, and cloud platforms (AWS & Azure). Strong foundation in SOLID principles, design patterns, and Agile workflows. Experienced in CI/CD automation, Docker, and performance optimization — delivering high-quality, reliable solutions

Experience

Full Stack .NET Developer at CSCByound march 2025 - Present

Built scalable .NET APIs and enhanced performance using LINQ, middleware, and Dependency Injection. Managed databases and strengthened application security and efficiency in API projects. Boosted API response time by 35% by optimizing LINQ queries, reduced database query load by 20% through caching, delivered features that decreased request error rate by 15% during internal testing

Software Engineer Intern at Intern Intelligence Nov 2024 -Mar 2025

deployed multiple full-stack applications including a Weather App with live API integration, a Booking App with scheduling and reservation logic, and a Todo App with full CRUD and user authentication — using ASP.NET Core, EF Core, SQL Server, and React, following SOLID principles and clean architecture throughout.

Technical Skills

Backend: [C#, OOP, ASP.NET Core, Web API, MVC, .NET Framework, SignalR]

Databases & ORM: [SQL Server, LINQ, Entity Framework, EF Core, ADO.NET, Dapper, Redis]

Core Concepts: [Problem Solving, Data Structure, Algorithms, SOLID, Design Patterns, Agile]

Cloud & DevOps: [AWS (EC2, S3, CloudFront), Microsoft Azure, Docker, GitHub Actions, CI/CD]

Frontend Technologies: [HTML5, CSS3, Bootstrap, JavaScript, Angular, react.js , next.js]

Soft Skills: [Teamwork, Research, Time Management, Communication Skills]

Education

Bachelor's degree in English Language and Translation – Jerash University, 2022 | GPA: 85%

Projects

Sooquk (<https://sooquk.com/>)

Fashion & Lifestyle E-Commerce Platform Jordan-focused storefront built for fashion and lifestyle sellers — organized product catalog, stable checkout flow, vendor management tools, and mobile-optimized performance tuned for high mobile traffic markets.

Cashtics (<https://cashtics.com/>)

Task Marketplace Platform (cashtics.com) Task marketplace connecting flexible workers with businesses posting short-term jobs featuring professional profiles, escrow-style payment flows, operator dashboard, and growing month-over-month task volume since launch.
